

7th meeting and final conference in Paris, 6th and 7th of January 2017

Organized by IFRTS & ITG in June 2017, the final conference of the TICS project was held at the premises of the **Agir Contre l'Exclusion Foundation (FACE / "Fight against exclusion"**, one of the largest private French foundations actively involved in action projects in favor of Disadvantaged young people, unemployed or retrained, and in the field of school and vocational training.

During the final conference, which was attended by many representatives of the TICS project and also participants from all walks of life, the TICS project outputs were presented in detail. **Presentations of the actions of the FACE Foundation also provided an opportunity to exchange views on sustainable actions for young audiences, with a view to helping them to progress in terms of training, personality, behavior and self-confidence.** The conference, which was rich in experience sharing, questions and answers, formal and informal moments, was a great event for the successful completion of the FACE project, in particular because the TICS project partners were able to present and share their In a framework open to European priorities, benefiting from the welcome and support of the FACE Foundation.
